

**OFFICE OF FOREIGN ASSETS CONTROL
 REPORT OF LICENSING ACTIVITIES
 PURSUANT TO
 THE TRADE SANCTIONS REFORM AND EXPORT ENHANCEMENT ACT OF 2000**

July - September 2013

This report is submitted pursuant to Section 906(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000 (“TSRA”) and covers activities undertaken by the Department of the Treasury’s Office of Foreign Assets Control (“OFAC”) under Section 906(a)(1) of the TSRA from July through September 2013. Under the procedures established in its TSRA-related regulations, OFAC processes license applications requesting authorization to export agricultural commodities, medicine, and medical devices to Iran and Sudan under the licensing regime set forth in Section 906 of the TSRA.

From July 1 through September 30, 2013, OFAC’s Licensing Division received a total of 298 applications pursuant to Section 906(a)(1) of the TSRA. During this period, OFAC issued a total of 324 licensing determinations,¹ of which 203 were for cases received in this quarter. OFAC issued 114 licenses, 46 license amendments, 26 “return-without-action” letters, and 1 denial letter in this quarter. Of the total licenses issued, 92 involved products for Iran and 22 for Sudan. For more details, see Charts 1-3 and Graph 1.

On October 22, 2012, OFAC reissued 31 CFR Part 560, renaming this part as the Iranian Transactions and Sanctions Regulations, and issued general licenses that authorize the exportation or reexportation of most food items, medicines and basic medical supplies to Iran, thereby removing the requirement to apply for a specific license for such exports and reexports while continuing to meet the requirements of Section 906(a)(1) of the TSRA. On July 25, 2013, OFAC updated the basic medical supplies general license to add additional items to the list of basic medical supplies authorized for export by that license. Certain specified food items and medicines, as well as exports to certain persons, requiring a greater level of scrutiny are excluded from the general licenses. These transactions, as well as the exportation or reexportation of items that do not fall within the parameters of the general licenses, continue to require specific licenses. A total of 107 cases were closed pursuant to these general licenses in this quarter.

**CHART 1
 Number of License Applications and Licenses Issued by Product**

	Agricultural Commodities	Medicine	Medical Devices	TOTAL
License Applications	50	33	215	298
Licenses Issued	21	11	82	114
License Amendments Issued	10	1	35	46
Applications Denied	0	0	1	1

¹A “licensing determination” is any action that OFAC takes on a license application. It may take the form of a license, a license amendment, a “return-without-action” letter, a general information letter, an interpretative letter, a denial letter, or a close-out determination.
