BILLING CODE 4810-AL-P

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 38

RIN 2900-AR43

Requesting Disinterment of an Eligible Decedent From a National Cemetery

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) is amending its regulations

governing disinterment of eligible decedents interred in VA national cemeteries to clarify that, if the individual who initiated the interment does not consent to a disinterment or is not alive to provide consent, or all living immediate family members are not in agreement, anyone seeking disinterment of an eligible decedent must obtain an order from a court or State instrumentality of competent jurisdiction to direct the disinterment.

DATES: This rule is effective September 16, 2022.

FOR FURTHER INFORMATION CONTACT:

Alan Amelinckx, Management and Program Analyst, National Cemetery Administration, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420. Telephone: 202-461-5658 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: On February 9, 2022, VA published in the **Federal Register** (87 FR 7402) a

proposed rule revising its regulation to clarify that disinterment from a national cemetery will be approved only when a court order or State instrumentality of competent jurisdiction directs the disinterment, or when all living immediate family members of the decedent, and the individual who initiated the interment (whether or not the individual is a member of the immediate family), give their written consent. The public comment period ended on April 11, 2022. VA received one comment that generally supported the rule but expressed concern about costs associated for claimants requesting disinterment. The commenter restated VA's Paperwork Reduction Act burden analysis and advised VA to include those costs on VA Form 40-4970, Request for Disinterment, to avoid negative outcomes for families who would incur those costs. We clarify that the burden analysis is required to justify the collection of information and inform the public of the time and cost of the public's time in providing the information. Those "costs" are not transferred to individuals seeking to request disinterment through the submission of VA Form 40-4970. The revision to the form, which is currently approved by the Office of Management and Budget (OMB) under OMB control number 2900-0365, will not result in any increase or decrease in respondents, respondent burden hours, or respondent burden costs. Therefore, VA makes no changes based on the comment.

Executive Orders 12866 and 13563

Executive Orders 12866 and 13563 direct agencies to assess the costs and

benefits of available regulatory alternatives and, when regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, and other advantages; distributive impacts; and equity). Executive Order 13563 (Improving Regulation and Regulatory Review) emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. The Office of Information and Regulatory Affairs has determined that this rule is not a significant regulatory action under Executive Order 12866. The Regulatory Impact Analysis associated with this rulemaking can be found as a supporting document at www.regulations.gov.

Regulatory Flexibility Act

The Secretary hereby certifies that this final rule will have no significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (5 U.S.C. 601-612). This certification is justified because most disinterment requests are submitted by families. Although a local court or State instrumentality may be involved if all living family members do not consent to a contemplated disinterment request, or the individual who initiated the interment does not consent to the disinterment or is not alive to provide consent, processing and adjudicating a request for disinterment as directed by a court order or State instrumentality would likely be rare and would be conducted as part of that entity's routine operations. VA cannot estimate the number of entities that may be affected by this final rule given that each disinterment case is based on the unique needs of families. Therefore, pursuant to 5 U.S.C. 605(b), the initial and final regulatory flexibility analysis requirements of 5 U.S.C. 603 and 604 do not apply.

Unfunded Mandates

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in an expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year. This final rule will have no such effect on State, local, and tribal governments, or on the private sector.
