Background*The Federal Civil Penalties Inflation Adjustment Act*

Section 4 of the Federal Civil Penalties Inflation Adjustment Act (1990 Pub. L. 101–410, 104 Stat. 890; 28 U.S.C. 2461 note), as amended by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Pub. L. 114–74, 129 Stat. 599, 28 U.S.C. 2461 note) (collectively, the FCPIA Act), requires each federal agency with statutory authority to assess civil monetary penalties (CMPs) to adjust CMPs for inflation according to a formula described in section 5 of the FCPIA Act. One purpose of the FCPIA Act is to ensure that CMPs continue to maintain their deterrent effect through periodic cost-of-living based adjustments.

The FCPIA Act directs agencies to adjust the level of CMPs for inflation with an initial “catch-up” adjustment to be effective no later than August 1, 2016, followed by annual adjustments. The FCPIA directs the Office of Management and Budget (OMB) to provide agencies with guidance and Consumer Price Index for all Urban Consumers (CPI–U)-related multipliers for the initial catch-up adjustment and subsequent annual adjustments.

OFAC currently is authorized to impose CMPs pursuant to five statutes: The Trading with the Enemy Act (50 U.S.C. 4315) (TWEA); the International Emergency Economic Powers Act (50 U.S.C. 1705) (IEEPA); the Antiterrorism and Effective Death Penalty Act of 1996 (18 U.S.C. 2339B) (AEDPA); the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1906) (FNKDA); and the Clean Diamond Trade Act (19 U.S.C. 3907) (CDTA).

OFAC issued an initial catch-up adjustment rule for CMPs pursuant to these statutes on August 1, 2016 (81 FR 43070, July 1, 2016), and issued annual CMP increases on February 10, 2017 (82 FR 10434, February 10, 2017), March 19, 2018 (83 FR 11876, March 19, 2018), June 14, 2019 (84 FR 27714, June 14, 2019), and April 9, 2020 (85 FR 19884, April 9, 2020).

OFAC inadvertently omitted from its initial catch-up regulation and

subsequent annual increases its CMPs for failure to comply with a requirement to furnish information, the late filing of a required report, and failure to maintain records, which are located in its Economic Sanctions Enforcement Guidelines in appendix A to 31 CFR part 501. This interim final rule combines the catch-up adjustment that would have become effective August 1, 2016, plus the annual adjustments for 2017 through 2020 for these CMPs.

In addition, OFAC is making technical edits to the authority citation for part 501 to conform to **Federal Register** guidance.

Calculation Method for Catch-Up Adjustments

In order to complete the catch-up adjustment for CMPs, the FCPIA Act directs agencies to identify when the CMP amount or range was established or last adjusted, other than adjustments pursuant to the FCPIA Act. Agencies are directed to use that amount or range as a starting point for performing calculations. The catch-up calculations therefore exclude prior inflationary adjustments under the FCPIA Act. The FCPIA Act directs agencies to calculate initial catch-up adjustments based on the percent change between the CPI–U for the month of October in the year of the last non-FCPIA-Act-based adjustment and the October 2015 CPI–U. In accordance with the FCPIA Act, the amount of the CMP catch-up adjustment shall not exceed 150 percent of the corresponding level in effect on November 2, 2015 (the “maximum adjustment”), and agencies must round all CMP levels to the nearest dollar after applying the multiplier.

On February 24, 2016, OMB issued written guidance providing agencies with CPI–U-related multipliers to use when adjusting the CMP level or range of CMP levels based on the year the CMP was established or last adjusted by statute or regulation. (*Memorandum for the Heads of Executive Departments and Agencies: Implementation of the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015* (OMB Catch-Up Guidance)).

Catch-Up Adjustments for Failure To Comply With a Requirement To Furnish Information and the Late Filing of a Required Report

OFAC's CMPs for failure to comply with a requirement to furnish information pursuant to 31 CFR 501.602 and the late filing of a report set forth in regulations or a specific license are contained in sections IV.A and B, respectively, of appendix A to 31 CFR part 501. OFAC established these CMPs

on September 8, 2008 (73 FR 51933, September 8, 2008), and OFAC has not adjusted them since. Pursuant to the OMB Catch-Up Guidance, the inflation factor for catch-up adjustments for these CMPs is 1.09819, with a maximum allowable adjustment of 150 percent of the CMP that was in effect on November 2, 2015.

The CMP established in 2008 for failure to furnish information pursuant to 31 CFR 501.602 irrespective of whether any other violation is alleged is \$20,000. Applying the multiplier of 1.09819 results in a catch-up CMP of \$21,964. The CMP established in 2008 for failure to furnish information pursuant to 31 CFR 501.602 where OFAC has reason to believe that the apparent violation(s) involves a transaction(s) valued at greater than \$500,000, irrespective of whether any other violation is alleged, is \$50,000. Applying the multiplier of 1.09819 results in a catch-up CMP amount of \$54,910. The CMP established in 2008 for the late filing of a required report, whether set forth in regulations or in a specific license, if filed within the first 30 days after the report is due, is \$2,500. Applying the multiplier of 1.09819 results in a catch-up CMP amount of \$2,745. The CMP established in 2008 for the late filing of a required report, whether set forth in regulations or in a specific license, if filed more than 30 days after the report is due, is \$5,000. Applying the multiplier of 1.09819 results in a catch-up CMP amount of \$5,491. The 2008 CMP for the late filing of a required report, whether set forth in regulations or in a specific license, if the report relates to blocked assets, is an additional \$1,000 for every 30 days that the report is overdue, up to five years. Applying the multiplier of 1.09819 results in a catch-up CMP amount of \$1,098. None of these catch-up increases exceeds the maximum adjustment amount. These catch-up increases are shown in Column 2 of Table 1.

Catch-Up Adjustment for Failure To Maintain Records in Conformance With the Requirements of OFAC's Regulations or of a Specific License

OFAC last adjusted its CMP for failure to maintain records in conformance with the requirements of OFAC's regulations or of a specific license, which is located in section IV.C of appendix A to 31 CFR part 501, on November 9, 2009 (74 FR 57593, November 9, 2009). The 2009 adjustment of this CMP provides for a penalty in an amount up to \$50,000. Pursuant to the OMB Catch-Up Guidance, the relevant inflation factor for the catch-up adjustment for this

CMP is 1.10020, with a maximum allowable adjustment of 150 percent of the CMP that was in effect on November 2, 2015. Applying the multiplier of 1.10020 to this CMP results in the catch-up amount up to \$55,010, which does not exceed the maximum adjustment. This catch-up figure is shown in Column 2 of Table 2.

Calculation Method for 2017, 2018, 2019, and 2020 Adjustments

The FCPIA Act requires agencies to adjust CMPs annually for inflation subsequent to the initial catch-up adjustment. These annual adjustments are to be based on the percent change between the CPI-U for the October preceding the date of the adjustment and the prior year's October CPI-U. Each December, OMB issues the adjustment multiplier for the upcoming year's calculations. In order to complete the annual adjustment, each CMP (as revised by the catch-up adjustment) is multiplied by the adjustment multiplier for that year. Under the FCPIA Act, any increases in CMPs must be rounded to the nearest multiple of \$1.

The adjustment multiplier for the 2017 CMP increase was 1.01636, as set forth in OMB Memorandum M-17-11 of December 16, 2016 (*Memorandum for the Heads of Executive Departments and Agencies: Implementation of the 2017 Annual Adjustment pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015*). For the 2018 CMP increase, OMB Memorandum M-18-03 of December 15, 2017 provided an adjustment multiplier of 1.02041 (*Memorandum for the Heads of Executive Departments and Agencies: Implementation of Penalty Inflation Adjustments for 2018, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015*). For the 2019 CMP increase, OMB Memorandum M-19-04 of December 14, 2018 stated the adjustment multiplier was 1.02522 (*Memorandum for the Heads of Executive Departments and Agencies: Implementation of Penalty Inflation Adjustments for 2019, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015*). For the 2020 CMP increase, OMB Memorandum M-20-05 of December 16, 2019 provided an adjustment multiplier of 1.01764 (*Memorandum for the Heads of Executive Departments and Agencies: Implementation of Penalty Inflation Adjustments for 2020, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015*).

Adjustments for 2017, 2018, 2019, and 2020 for Failure To Comply With a Requirement To Furnish Information and the Late Filing of a Required Report

If OFAC had calculated the 2017 annual adjustment for its CMPs for failure to comply with a requirement to furnish information and the late filing of a report, each of the catch-up CMP amounts would have been multiplied by the OMB-provided factor of 1.01636. The resulting amounts for the 2017 CMPs are shown in Column 3 of Table 1. If OFAC had calculated the 2018 annual adjustment, the 2017 CMPs would have been multiplied by the OMB-provided factor of 1.02041. The resulting amounts for the 2018 CMPs are shown in Column 4 of Table 1. If OFAC had calculated the 2019 CMP adjustment, the 2018 CMPs would have been multiplied by the OMB-provided factor of 1.02522. The resulting amounts for the 2019 CMPs are shown in Column 5 of Table 1.

For the 2020 CMP increases, OMB provided an adjustment factor of 1.01764. OFAC multiplied the 2019 CMP amounts by this factor, resulting in the 2020 CMP amounts as shown in Column 6 of Table 2. These 2020 CMP amounts will be effective October 5, 2020 for associated violations that occurred after November 2, 2015 for which penalties were assessed on or after October 5, 2020.

Adjustments for 2017, 2018, 2019, and 2020 for Failure To Maintain Records in Conformance With the Requirements of OFAC's Regulations or of a Specific License

If OFAC had calculated the 2017 annual adjustment for its CMP for failure to maintain records in conformance with the requirements of OFAC's regulations or of a specific license, the catch-up CMP amount would have been multiplied by the OMB-provided factor of 1.01636. The resulting amount for the 2017 CMP is shown in Column 3 of Table 2. If OFAC had calculated the 2018 annual CMP adjustment, the 2017 CMP would have been multiplied by the OMB-provided factor of 1.02041. The resulting amount for the 2018 CMP is shown in Column 4 of Table 2. If OFAC had calculated the 2019 CMP adjustment, the 2018 CMP would have been multiplied by the OMB-provided factor of 1.02522. The resulting amount for the 2019 CMP is shown in Column 5 of Table 2.

For the 2020 CMP increase, OMB provided an adjustment factor of 1.01764. OFAC multiplied the 2019 CMP amount by this factor, resulting in the 2020 CMP amount as shown in

Column 6 of Table 2. This 2020 CMP amount will be effective October 5, 2020 for associated violations that occurred after November 2, 2015 for which penalties were assessed on or after October 5, 2020.

Summary of CMP Increases in This Rule

The CMP for failure to comply with the requirement to furnish information pursuant to 31 CFR 501.602 irrespective of whether any other violation is alleged will increase from \$20,000 to \$23,765. The CMP for failure to comply with a requirement to furnish information,

where OFAC has reason to believe that the apparent violation(s) that is the subject of the requirement to furnish information involves a transaction(s) valued at greater than \$500,000, irrespective of whether any other violation is alleged, will increase from \$50,000 to \$59,413. The CMP for late filing of a required report, whether set forth in regulations or in a specific license, if filed within the first 30 days after the report is due will increase from \$2,500 to \$2,970. The CMP for late filing of a required report, whether set forth in regulations or in a specific license, if

filed more than 30 days after the report is due, will increase from \$5,000 to \$5,942. The CMP for late filing of a required report, whether set forth in regulations or in a specific license, if the report relates to blocked assets, an additional CMP for every 30 days that the report is overdue, up to five years, will increase from \$1,000 to \$1,189. The CMP for failure to maintain records in conformance with the requirements of OFAC's regulations or of a specific license will increase from a maximum of \$50,000 to \$59,522.

The adjusted CMP amounts described in this rule are applicable only to CMPs

assessed after October 5, 2020, whose associated violations occurred after

November 2, 2015, the date of enactment of the FCPIA Act.

Procedural Requirements*Notice and Comment*

As required by the FCPIA Act, these amendments are being published as an interim final rule with an effective date of October 5, 2020. Although other notice and comment procedures are not required, OFAC invites comments on this rule related to the catch-up adjustment only. The FCPIA Act expressly exempts the inflation adjustments from the notice and comment requirements of the Administrative Procedure Act, by directing agencies to adjust CMPs for inflation “notwithstanding section 553 of title 5, United States Code” (Pub. L. 114–74, 129 Stat. 599; 28 U.S.C. 2461 note).

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601–612) does not apply.

Paperwork Reduction Act

The Paperwork Reduction Act does not apply because this rule does not impose information collection requirements that would require the approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

TRICARE Coverage of Certain Medical Benefits in Response to the COVID–19 Pandemic

AGENCY: Office of the Secretary, Department of Defense.

ACTION: Interim final rule with request for comments.

SUMMARY: The Assistant Secretary of Defense for Health Affairs (ASD(HA)) issues this interim final rule (IFR) with comment to temporarily modify the TRICARE regulation by: Waiving the three-day prior hospital qualifying stay requirement for coverage of skilled nursing facility (SNF) care; adding coverage for treatment use of investigational drugs under expanded access authorized by the United States (U.S.) Food and Drug Administration (FDA) when for the treatment of coronavirus disease 2019 (COVID–19); temporarily waiving certain provisions for acute care hospitals that will permit authorization of temporary hospital facilities and freestanding ambulatory surgical centers (ASCs) providing inpatient and outpatient hospital services; and, consistent with similar changes under the Centers for Medicaid and Medicare Services (CMS), revising diagnosis related group (DRG) reimbursement by temporarily reimbursing DRGs at a 20 percent higher rate for COVID–19 patients and temporarily waiving certain requirements for long term care hospitals (LTCHs). Finally, this IFR will also adopt Medicare’s New Technology Add-On Payments (NTAPs) adjustment to DRGs for new medical services and technologies and adopt Medicare’s Hospital Value Based Purchasing (HVBP) Program.

DATES:

Effective date: This interim final rule with comment is effective on September 3, 2020 through either the end of the President’s national emergency (Proclamation 9994, 85 **Federal Register** (FR) 15337 (Mar. 18, 2020)) or the end of the declared public health emergency, including any extensions, (as determined by 42 United States Code (U.S.C.) 247d, except for NTAPs and HVBP, which will not expire). The ASD(HA) will publish a document announcing the expiration date. See the **SUPPLEMENTARY INFORMATION** section for more information.

Applicability date: Some policies in this IFR are applicable prior to the effective date of this IFR. The temporary waiver of the SNF three-day prior stay rule is applicable beginning March 1, 2020. The temporary DRG and LTCH reimbursement adjustments are applicable beginning January 27, 2020, and the adoption of the NTAPs and HVBP are applicable beginning January 1, 2020. All other changes are applicable on the effective date of this IFR.

Comment date: Comments are invited and must be submitted on or before November 2, 2020.

ADDRESSES: You may submit comments, identified by docket number and/or Regulation Identification Number (RIN) number and title, by any of the following methods:

- **Federal Rulemaking Portal:** <http://www.regulations.gov>. Follow the instructions for submitting comments.
 - **Mail:** The Department of Defense (DoD) cannot receive written comments at this time due to the COVID–19 pandemic. Comments should be sent electronically to the docket listed above.
- Instructions:** All submissions received must include the agency name and docket number or RIN for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Erica Ferron, Medical Benefits and Reimbursement Section, 303–676–3626, erica.c.ferron.civ@mail.mil.

SUPPLEMENTARY INFORMATION:

Expiration date: Unless extended after consideration of submitted comments, the medical benefit provisions in this IFR will cease to be in effect upon termination of the President’s declared national emergency, in accordance with applicable law and regulation (e.g., 50 U.S.C. 1622(a)), except the temporary
