Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Coast Guard

33 CFR Part 165

[Docket Number USCG–2025–0556]

RIN 1625–AA00

Safety Zones; Delaware River Dredging, Marcus Hook, PA

AGENCY: Coast Guard, DHS.

ACTION: Temporary interim rule and request for comments.

SUMMARY: The Coast Guard is establishing three temporary safety zones on the waters of the Delaware River, in portions of Marcus Hook Range, Anchorage 7, off Marcus Hook, PA, and Anchorage 9, near entrance to Mantua Creek. The safety zones temporarily restrict vessel traffic from transiting or anchoring in portions of the Delaware River while maintenance dredging is being conducted. The safety zones are needed to protect personnel, vessels, and the marine environment from hazards created by dredging operations. Entry of vessels or persons into these zones is prohibited unless specifically authorized by the COTP or his designated representatives.

DATES: This rule is effective without actual notice from July 9, 2025, through October 31, 2025. For the purposes of enforcement, actual notice will be used from July 1, 2025, until July 9, 2025.

Comments due date: Comments and related material must be received by the Coast Guard on or before August 8, 2025.

ADDRESSES: You may submit comments identified by docket number USCG–2025–0556 using the Federal Document Management System at <https://www.regulations.gov>. See the “Public

CFR Code of Federal Regulations
COTP Captain of the Port
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule under the authority in 5 U.S.C. 553(b)(B). This statutory provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” The Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable to do so given that there is insufficient time to allow for a reasonable comment period and publish a final rule prior to July 1, 2025, the start date for dredging operations.

Also, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register** for the same reason provided above.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The COTP has determined that dredging operations present potential hazards, such as the presence of submerged and floating pipelines, booster pumps, head sections, and vessels with a restricted ability to maneuver. The purpose of this rulemaking is to ensure the safety of personnel, vessels, and the marine environment within a 250-yard radius of
